YardLux TM creates eco-friendly practical outdoor spaces blending nature's beauty with modern living-perfect for family moments from intimate gatherings to quiet retreats. outdoor living for every family moment.

COMPANY PROFILE 01

About us

300 tones aluminum inventory

CNC machine

Semi-finished products

Yardlux was established in 2018. Our parent company has been deeply involved in the aluminum alloy industry for over 20 years, forming a comprehensive supply chain coverage across upstream and downstream sectors.

The company owns multiple facilities, including an aluminum extrusion plant a surface powder coating factory a metallic wood grain paperfactory or an aluminum spraying factory and an aluminum furniture research and manufacturing plant.

In order to provide better service for domestic and oversea market YardLux is always insisting on improving technology, innovation and considerate service to strive for meeting customized demands. We serve both domestic and international markets . Based on a strong upstream and downstream supply chain, we offer our customers faster and more professional outdoor living solutions.

Pavilion style outdoor kitchen

A pavilion-style outdoor kitchen is a versatile and stylish space designed for cooking and entertaining outdoors. It features a roof-supported structure that provides shade and protection from the elements. These kitchens include built-in appliances such as grills, refrigerators, sinks and storage cabinets, allowing for convenient and efficient outdoor cooking. Durable materials and weather-resistant finishes ensure the kitchen remains functional and attractive year-round.
